

SSM 53096 2024 F-150 Non-Lightning - Equipped With Minor Feature Codes C2BAW, C1CAG And FDDAA - Installing The Trailer Brake Controller Kit

2024 F-150 non-Lightning vehicles not equipped with a factory installed integrated trailer brake controller must have specific vehicle content from the factory to enable successful customer-pay upgrade to the integrated trailer brake controller. Vehicles must be equipped with minor feature codes C2BAW, C1CAG, and FDDAA. To confirm a vehicle is equipped with these minor feature codes, refer to the vehicle build information by double-clicking the vehicle identification number (VIN) in the upper left corner in Professional Technician System (PTS). The integrated trailer brake controller kit for 2024 F-150 non-Lightning vehicles is RL3Z-19H332-AA. Installation of this kit is not a warrantable condition and is subject to chargeback.
