***Events Unavailable Affecting Recalls  
(Update 11/1/2024 @ 8:30AM Pacific)***

Hyundai Motor America has noted following the GDS update on October 29, 2024 (NNH-02-0055) that events 1114, 1136, 1141, 1144, 1152, 1153 and 1161 are unavailable. This affects the following campaigns:

- Service Campaign 9B7 (Improvement of EBD Non-Operation Issues Due to NE N IEB S/W Sensors); Event #1114
- Recall Campaign 262 (ECU Update and DTC P0088 Inspection/Repair under TSB # 24-01-075H-1); Events #1141, 1152 & 1153
- Service Campaign TCF (Front Camera Software Update for FCA & LKA Logic Improvement under TSB # 24-01-077H); Event # 1136
- Service Campaign 9B5 (VCMS Software Update – Charging Logic); Event # 1144
- Service TSB 24-EM-008H (QX ECU Update due to Oil Level Sensor Malfunction); Event #1161

The update was pulled from the server and is no longer available. A fix will be provided shortly by way of a new GDS update.

If you have already updated your tablet, please use a tablet that has not received the update (NNH-02-0053 or earlier) or reach out to GITA at (888) 437-0308, where they will provide the event needed.

Thank you for your patience as we address this concern.
