

2024 MY Nautilus
Accessory Protocol Interface Module– SYNC
SU 10.2.4

Software Update - 10.2.4

No further actions are required for Customer Satisfaction Program 24B09 and 24B54.

1

New Features and Improvements:

- Improvements to the clarity and usability of the steering wheel control display.
- Better connectivity for Apple CarPlay.
- Audio system improvements, including better switching between sources.
- It's now simpler to adjust your air flow settings.
- Clearer and smoother visuals for the BlueCruise display animations.
- It's now easier to add and use profiles.

Customer Satisfaction Program 24B09/24B54

- Your Lincoln Digital Experience infotainment software has been updated to provide you the very latest features and quality improvements. This completes Customer Satisfaction Program 24B09 and 24B54.
- As some systems are reset after the update, in some instances, a wrench light may briefly appear on your display during this update, but it will clear after you turn your vehicle off and back on. There is no further action you need to take.
