

Transmission control unit Y3/8n4 (fully integrated transmission control unit (VGS)) not listed in quick test; no communication possible with VGS

Topic number	LI27.19-P-072588
Version	2
Function group	27.19 - Transmission - electrical system
Date	11/19/24
Validity	Automatic transmissions 722.9, 724.2 and 725.0, 725.1, 724.0. 724.1
Reason for change	Validity

Complaint

Transmission control unit Y3/8n4 (fully integrated transmission control unit (VGS)) not listed in quick test and/or no communication possible with VGS.

Cause

Transmission control unit Y3/8n4

Remedy

It is important that LI54.15-P-057373 is processed before replacing any component parts (transmission 722.9).

After processing and complying with the above documents, perform a reset on the transmission control unit Y3/8n4 (VGS) (ignition reset), check that the transmission connector is seated correctly and inspect the PINs for concerns. If communication with the VGS cannot be established afterwards, the component part 'electrohydraulic controller unit (EHS)' must be replaced, as it is not possible to transfer the valve characteristics under the above-mentioned conditions.

Installation of a VGS repair kit is not permitted in this case.

Disclaimer

NOTE: The information contained in this document is intended for use by trained, professional technicians with the knowledge to properly and safely perform diagnosis and repairs on Mercedes-Benz vehicles, using Mercedes-Benz approved tools and equipment. It informs service technicians about conditions that could occur in certain vehicles and provides information that could assist in proper vehicle diagnosis, service, or repair. It does not indicate that a defect is present in any vehicle referenced in this document nor does it imply warranty coverage. DO NOT assume that a symptom or condition, or a described cause of a symptom or condition, affects any particular vehicle or groups of vehicles, or that a described repair applies to any particular vehicle or groups of vehicles. There can be multiple causes resulting in the same or similar symptoms or conditions described in this document, and trained professional service technicians must use their diagnostic skills to make evaluations on a case-by-case basis. The information contained in this document does not guarantee warranty coverage nor does it extend the vehicle's warranty in any way.

Symptoms
Power transmission > Automatic transmission > Function > Malfunction
Power transmission > Automatic transmission > Function > Electrical fault/Fault code

Control unit/fault code	
Control unit	Fault text
