

Bulletin No.: PIT6294

Published date: 12/3/2024

Preliminary Information

PIT6294 Exterior Lights Flash While Parked And /Or Battery Goes Dead

Models

Brand: Buick **Model:** Envision 2024 - 2025 **Model Years:** All **VIN:** All All **Engine:** All **Transmissions:** All

Involved Region or Country	North America
Condition	Some customers may comment that the lights flash while parked or the battery goes dead.
Cause	The K171 Rear Closure Hands Free Module may intermittently cause BCM to wake up the vehicle bus. This may cause a dead battery. Lights may flash when vehicle is parked and locked.

Correction:

Perform one of the following tests.

1) Fasten the key fob to the rear wiper and see if when the lights flash the rear lift gate opens.

2) Perform a parasitic draw test to confirm draw is occurring and disconnect the K171 Rear Closure Hands Free Module and see if the draw goes away.

If the liftgate opens with the fob present or the draw is eliminated with the K171 Rear Closure Hands Free Module, replace module and test operation.
