**Important:** Service agents must comply with all International, Federal, State, Provincial, and/or Local laws applicable to the activities it performs under this bulletin, including but not limited to handling, deploying, preparing, classifying, packaging, marking, labeling, and shipping dangerous goods. In the event of a conflict between the procedures set forth in this bulletin and the laws that apply to your dealership, you must follow those applicable laws.

**Important:** This technical service bulletin (TSB) can only be completed by certified repair facilities who have met all specific training, tool and equipment requirements pertaining to the vehicle Brand and Model serviced. Repairs must be performed by a technician who has successfully completed the required training.

**Information**

6737060

North American Charging Standard (NACS) DC Adapters are designed for electric vehicles with a native CCS1 charge port, offering the ability to charge on a NACS public charger. Customers are advised to contact EV Concierge (1-833-64POWER) for assistance on adapter usage and charging questions.

The adapters are covered under the terms of a 1-year Limited Parts Warranty from the date of purchase. The limited warranty is only valid for the original part purchaser and is not transferrable.

This Warranty does NOT cover:

- Damage or failure due to negligence, alteration, accident, abuse, improper installation, or use for a purpose which the product is not designed or approved by GM
- Loss of time, inconvenience, loss of use of the vehicle, or other consequential damages
- Labor cost for electrical diagnosis
- Products utilized for vehicles registered and normally operated outside of the United States or Canada

Dealers are to conduct a visual inspection of the adapter for signs of abuse or damage. (Damage or abuse would not be considered as a warrantable replacement).

Dealers are to verify warranty eligibility by requesting from the customer their original receipt or proof of purchase. A copy is to be retained by the dealer in order to support the parts replacement transaction.

Dealers should provide consumer with replacement adapter following the replacement process listed below. The dealer must submit an over-the-counter warranty claim (ZPTC Transaction Type) for reimbursement. Subsequent replacements under the warranty will receive the balance of the original warranty period. As part of our standard warranty policy, the subsequent parts would only be warranted for the remainder of the original warranty.

Replacement Process (for USA only):

- Due to limited supply volume and lack of dealer stocking at launch, ADIs will be able to provide adapter warranty replacement parts.
- ADIs will be advised to set aside a certain percentage for warranty replacement stock. Dealers will be able to request a 'pull' from this volume.

Replacement process in Canada to follow normal process for GM Genuine Parts using Labor Operation code mentioned below.

Adapters replaced under warranty should be retained in accordance with currently published warranty parts handling procedures and retention policies.

GM will be requesting initial failed adapters be returned to the Warranty Parts Center for root cause analysis. Dealers will receive a return request upon claim payment. Refer to the latest version of Service Bulletin 99-00-89-019 (Global Warranty Management (GWM) Warranty parts Center (WPC) parts Return Program Information) for further details on the part return process and eligible administrative allowance.

### Parts Information

Causal Part	Description	Part Number
N/A	NACS DC Adapter (1)	85090442 (Not sold in Canada)
	NACS DC Adapter (2)	85836744
