

START UP BATTERY LOW OR FLAT

Range Rover

• 21-25MY Evoque

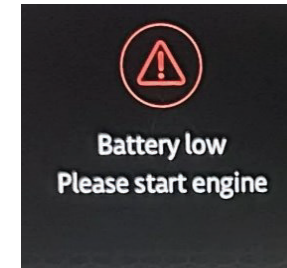

Discovery

• 21-25MY Discovery Sport

Concern

Customer may report the following:

- *“Vehicle displays low battery warning”*
- *“Vehicle battery flat, required jump start”*

Technical description

Concern has been identified where the vehicle may remain awake more than 30 minutes after locking leading to start up battery drain.

- RFA software **F188 L8B2-19C204-AX** affected
- Software version can be reviewed under diagnostic tab selecting "ECU Data" -> Selecting RFA module to view software.

Action

- Reference **SSM76221**
- Follow the recommended actions and complete Fault & Breakdown process where applicable.

SSM76221 will be updated once new RFA software that will correct the concern permanently is available.
