

## TECH TIP

ID No. TT-24-013  
Ref. No. HMM-241217-Y1  
Release Date 12-19-2024

### TT-24-013 22-25 MY RF BRAKE AIRLINE REROUTE

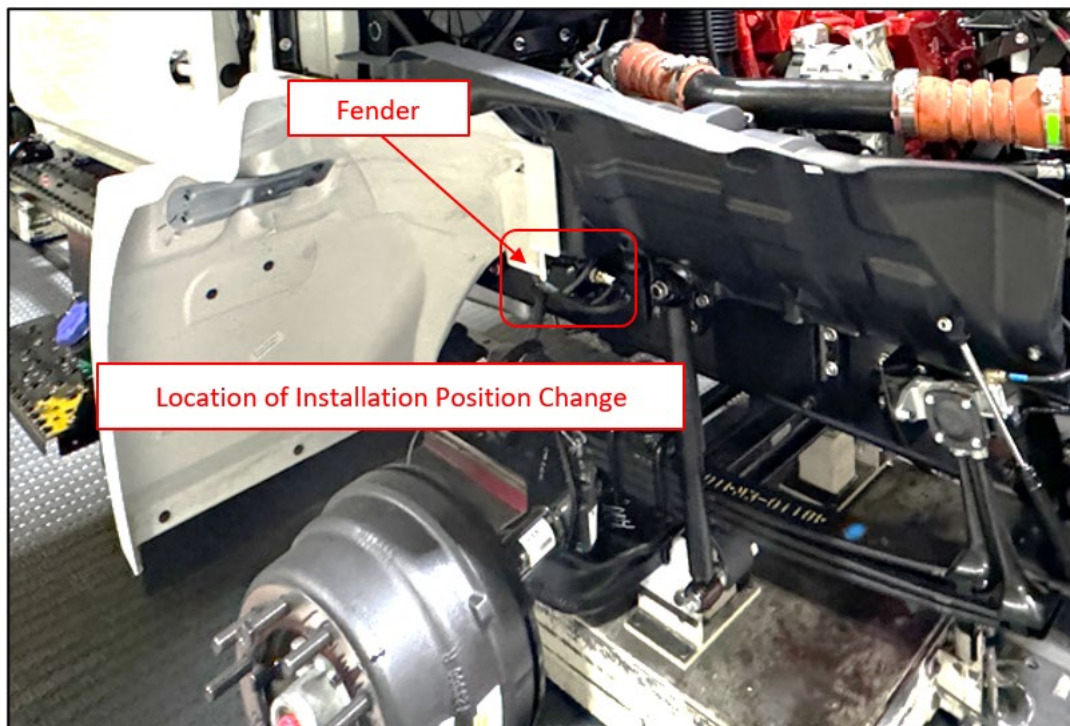

#### SUBJECT VEHICLES

2022 – 2025 Model Year Hino L-Series trucks equipped with Air Brakes built before 7/31/2024.

***NOTE: This Technical Tip is provided as technical information and is not an authorization for a warrantable repair.***

#### DESCRIPTION OF CONDITION

The installation position of the nylon brake line to the passenger front air brake modulator has been adjusted on vehicles produced after 7/31/2024. This change was made in response to field reports that found contact occurring between the lower edge of the fender and the nylon air brake line. If the nylon line is being replaced see below for the recommended installation position.
