

WRU9 Workshop campaign – Re-coding front camera

WRU9 Workshop campaign - Re-coding front camera

| | |
|-------------------------|--|
| ID Number | WRU9 |
| Model(s) | Macan (95B) |
| Model Year(s) | 2023 - 2025 |
| VIN List | Attached |
| Number of Affected VINs | 6,250 |
| Issue Description | In the affected vehicles, it is possible that the Traffic Jam Assist (TJA) function will not be available due to faulty coding of the front camera in the speed range of 0 to 65 km/h (0 to 40 mph). For this reason, the front camera in the affected vehicles must be re-programmed. |
| What Dealers Should Do | Please arrange for this action to be carried out in the affected vehicles during the next workshop visit or before the vehicles are handed over to customers. |
| TI | No. 209 - 24 |

Required software

| | |
|--------------------------------------|------------------------|
| PIWIS Tester 4 test software version | 43.000.030 (or higher) |
|--------------------------------------|------------------------|
