Title: Engine Emission Label Replacement, Certificate of Conformance and Clean Idle Sticker Addition Procedure

Applies To: All Navistar Powered Trucks Requesting Engine Emission Label Replacement, Certificate of Conformance and/or Clean Idle Sticker.

CHANGE LOG

Please refer to the change log text box below for recent changes to this article:

12/17/2024 - Added details about new CMS case submission
08/20/2020 - Updated author
03/23/2020 - Updated sentence structure for provided info. Changed shipping from UPS to FedEx.
10/29/2019 - Updated info for Reman Labels
03/28/2019 - Updated Support Number Prompts

DESCRIPTION

This article describes how to get a replacement Emissions Label, Certificate of Conformance or Clean Idle decal for a Navistar/International engine.

You will need to contact Cummins for those same labels for a Cummins engine.

PROCEDURE

Navistar/International engine emission labels (except CV), Certificates of Conformance, and Clean Idle decal additions will be provided by the Vehicle Programming Group, via the iKNOW system. The cost per replacement is \$100.00 (US Dollars) each + shipping fees.

INTERNATIONAL ENGINES

To obtain an engine Emission Label, Certificate of Conformance, or Clean Idle decal, please submit a request through the new CMS (case management system) by creating a case file for **EACH VIN. Please be sure to submit this case file to the Vehicle Programming group.** See [IK3000111](#) for instructions on how to submit a case file in the new CMS. Please provide information such as engine build year, horsepower rating, engine model and engine serial number.

INTERNATIONAL ENGINES IN FORD VEHICLES

For requests for International engines in Ford vehicles, have the customer email FordLabelRequest@bluediamondparts.com with the Ford VIN and other engine information. There is no need for a case file with Navistar.

INTERNATIONAL CV

For International CV/International 6.6 engine, the Engine Label is ordered via the TSC replacement label process. See [G-6355](#) or [PL1600001](#) for additional information.

To obtain a Clean Idle decal, please submit the request through the new CMS (case management system) by creating a separate case file for **EACH VIN. Please be sure to submit this case file to the Vehicle Programming group.** See [IK3000111](#) for instructions on how to submit a case file in the new CMS.

REMANUFACTURED ENGINES

Replacement labels for Remanufactured engines need to be obtained from the company that remanufactured the engine.

Notes:

- If you already have a case file open for a request such as a Horsepower change, CARB Change, etc. then you do not need to open an additional case file for this request as the request will be handled in that case file.
- The Emission Label and Certificate of Conformance processing time can take up to 2 weeks.
- All processed and completed engine Emission Labels, Certificate of Conformance and/or Clean Idle Stickers will be shipped to the dealer via FedEx.
- If you have questions, please ask in the case file or contact **Vehicle Programming Tech Service** You can find their contact information in document [SH2500010](#)
