

SSM 53303 2025 F-150/Bronco Sport/Maverick - Media Bin USB Port Illumination No Longer Equipped

2025 F-150/Bronco Sport/Maverick vehicles are no longer equipped with illumination around the USB ports within the media hub located in the forward section of the front console. The lack of illumination around the USB ports is not a defect or fault and the replacement of any parts is not a warrantable repair. Confirm media hub operation by plugging a device into the USB port and confirm it connects to the vehicle's entertainment system and charges the device. The media hub provides increased charging compared to prior model years. Do not submit a claim for this condition.
