

SSM 53307 2025 Maverick - Hybrid - Illuminated Malfunction Indicator Lamp (MIL) While The Vehicle Is In Transport Mode - Built On Or Before 8-Jan-2025

Some 2025 Maverick hybrid vehicles built on or before 08-Jan-2025 may exhibit an illuminated MIL while the vehicle is in transport mode. To correct this condition, deactivate transport mode during pre-delivery inspection and perform three key cycles ending in the ON position. Start the vehicle and verify that the MIL is no longer illuminated.
