

Priority Update 6.14.0

Accessory Protocol Interface Module

SYNC-2.0.13

1

Enhanced Center Screen Experience

This update enhances your vehicle's center screen stability, helping reduce reboots and improve Apple CarPlay and Bluetooth connectivity for a smoother, more enjoyable drive.

Voice Your Feedback

Have thoughts to share? Your vehicle now lets you send voice messages to Lincoln, helping us stay connected and advance the Lincoln experience.

Please understand that while we eagerly listen to all feedback, we may not respond directly to each message. For immediate assistance or safety concerns, we encourage you to contact your local retailer.

To begin, navigate to the Settings tab in your vehicle's center screen and select Record Feedback.
