

Title:	Pierce Hosemate™ Safety Swivel Flange End			
Number:	PB_725	Release Date:	01/14/2025	
Revision Number:	Not Applicable	Revision Date:	Not Applicable	
Chassis Type:	Not Applicable			
Component Description:	Hosemate™ Safety Swivel			
Parts:	See parts table listed below			

Subject:

As a product improvement, Pierce is now offering an exclusive Hosemate™ Safety Swivel. These flanges will be bolt-on and retrofitted to any Akron/Elkhart four-bolt flanged valves using the same bolts and gaskets found on the standard swivel and plug. We also offer the Trident Hosemate in the flange sizes for the F1, F3, and F5 lengths. This new safety swivel allows the end user to avoid twists in hose lines as they are charged.

Description:

Features and Enhancements:

- Stainless steel valve flange with chrome plated brass safety swivel.
- Hydrostatically pressure tested up to 750 psi.
- Double raceway, full time swivel with stainless bearings (Water/Fluid never touches the swivel).
- Rubber gasket sealing face on the female threaded end.
- NFPA compliant.
- Rocker lugs and Pierce VLH™ pressure relieving threads.
