

SSM 53352 2022-2025 Escape - Hybrid - 12 Volt Battery Replacement

When replacing the 12V battery on 2022-2025 Escape hybrid vehicles, download and run the Battery Type Configuration application using the latest version of the Ford Diagnostic and Repair System (FDRS) scan tool. Select the battery type installed in the vehicle. Follow the on-screen instructions to update the body control module (BCM) configuration. A password is required to run the Battery Type Configuration application. When entering the password, all letters of the service part number of the current battery fitted to vehicle should be in CAPITALS.
