Circular Letter – RU #658 669 684 712 Maserati Granturismo – Air Springs Replacement Important note on spare parts

DATE: FEBRUARY 3 2025

As recently communicated in **Rapid Update #658 669 684 712** regarding the need to replace the front shock absorbers on the new GranTurismo vehicles, we would like to remind you that, starting from last July 2024, the components available from our network are identified, for internal supplier reasons, with two different series of part numbers.

However, we would like to point out that the components are **the same, therefore both codes can be used interchangeably.**

It is also specified that the HQ Supply Chain reserves the right to send one pair or another of components indiscriminately depending on availability.

Below are all correct part numbers, as of the date of this bulletin, which will be admitted in the warranty claims.

It is understood that any part numbers introduced in the future will be considered compliant and suitable for the execution of the campaign.

“ICE” version

Spare parts description	PN	QTY
(OLD) Equivalent versions		
FRONT RIGHT SHOCK ABSORBER SPRING GROUP M189	670311033	1
FRONT LEFT SHOCK ABSORBER SPRING GROUP M189	670311029	1
