

2023 MY Transit  
Telematics Control Unit– TCU  
SU 6.2.0

Software Update 6.2.0

Software updates are designed to help make your vehicle better over time.

1

Improved Connectivity

- We've enhanced your vehicle's ability to have a more reliable and robust communication link to provide a more seamless connected vehicle experience, whether it's for navigation, entertainment, or receiving important vehicle updates.
