

## 2<sup>ND</sup> ROW SEAT WILL NOT TILT FORWARD FOR 3<sup>RD</sup> ROW ACCESS

### Customer Voice:

- The 2<sup>nd</sup> row seat doesn't 'bunny hop' (tilt forward for access) when trying to access the 3<sup>rd</sup> row seats.

### Technical Description:

- When the 2<sup>nd</sup> row 'bunny hop' feature switch is depressed, the 2<sup>nd</sup> row seat slides forward, but the seat latches fail to release preventing the seat from tilting forward.

### Status:

- Engineering is investigating the concern as to why the latch motor is failing to release the latch.
- **SSM 76262** has been published to provide an interim repair while the permanent repair is being determined.
- Any concerns after performing the SSM procedure, please raise a TA case.
