Models

Brand:	Model:	Model Years:	VIN:	Engine:	Transmissions:
			from to		
Cadillac	Escalade IQ	2025	All All	All	All

Involved Region or Country	North America
Condition	<p>When the customer's power door opening width is set to Standard or Maximum and the window is rolled down more than 2/3rds of the way, then that door does not fully open and a door blocked message is displayed in the front or rear command center.</p> <ul style="list-style-type: none"> • Left Front Door blocked. Open cautiously • Left Rear Door blocked. Open cautiously • Right Front Door blocked. Open cautiously • Right Rear Door blocked. Open cautiously
Cause	Software anomaly in the Front and Rear Side Door Object Detection Sensor that is part of the Outside Door Handle.

Correction:

New software has been released to correct this condition that resides within the K15 Access Control Module. Perform a vehicle wide programming update per TSB 24-NA-143: Software Update on Ultium Vehicles.

NOTE: The message will display during normal operation of the power doors if the door handle radar senses a real obstruction while the door is opening.
