SERVICE:

To quality assure the wiper blade replacement it is very important to set the wipers into service position. Also, pay attention to the clicking sound (step 2 below) verifying that the wiper blade is in removal position and ready to be removed.

Follow below steps to replace the wiper blade:

1. Put the wipers in service position and fold the wiper arms forward.
2. Put the wiper blade in removal position by folding it out from the wiper arm until it clicks (see number 2 in attachment “TJ_37149_1.pdf”).
3. Press and hold the lock button on the wiper blade attachment (see number 3 in attachment “TJ_37149_1.pdf”).
4. While holding the button down, pull the blade straight out, parallel with the wiper arm (see number 4 in attachment “TJ_37149_1.pdf”).
5. Slide in the new wiper blade until it clicks into place.

Technical Journal 37149.1.0

6. Fold the blade back towards the arm until it clicks into place.
7. Fold the wiper arm back towards the windshield.
