# Grecale Airbag Warning Light ON

DATE: March19 2025

This Technical bulletin serves as a guide and provides additional diagnostic info for possible DTCs related to the ORC module.

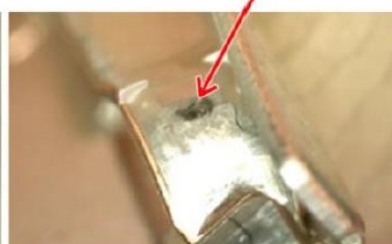

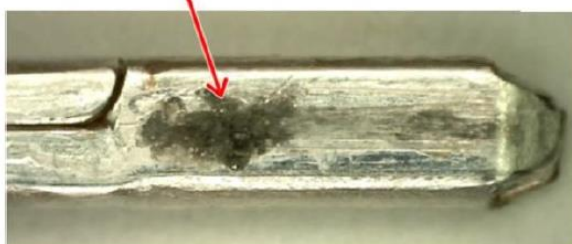

**MODELS:** Grecale (All MY).

**CUSTOMER CONCERN:** The airbag warning light turns on while driving, and one or more of the following DTCs are stored in the ORC module:

## DTCs

- B005013: Intermittent Driver's Seat Belt Sensor - Open Circuit
- B005213: Passenger Front Seat Belt Buckle Switch - Open Circuit
- B00501D: Driver's Seat Belt Sensor - Circuit Current Out of Range
- B00521D: Passenger Front Seat Belt Buckle Switch - Circuit Current Out of Range

**CAUSE:** Possible oxidation of the seat connector (see example photo below).

**ACTION:** If you handle a concern related to this issue, please:

1. **DO NOT** replace the buckle harness; instead, open a BOL as an Information to the Factory, attaching supporting documentation according to the Blue Online Policy.
2. Order the KIT with P/N #673016655.
3. Perform rework according to the workshop manual procedure #07.10.053-25 and claim with labor code #07.10.053.0 (0.50 h).

Thank you for your attention.
