Condition

In the event a customer asks if E10 fuel can be used, the operative must refer to the Technical background section of this TPI

Technical Background

Details on the introduction of E10 fuel which contains 10% ethanol and its usage on Bentley products

- All vehicles produced post 1990 Model year can be run using E10 fuel

However

- **All vehicles produced before 1990 Model year MUST NOT use E10 fuel**

Maintain the use of E5 (Super Unleaded equivalent) on all products where possible

Please always refer to the information detailed on the fuel flap label and within the Owners handbook
