### A-Series Front Spray Bar

Part Number: +203680 to +204E89

For Model: A7/A8/A9

The front spray bar option for A7/A8/A9 is changing from SCH80 PVC to the SCH80 galvanized steel pipe used on the M-Series. This is a rolling change; all new orders will get the new spray bar.

This change was made to reduce the amount of water sprayed directly in front of the tires to reduce the likelihood of compacting wet material and increase ground clearance to the spray bar and associated mounting components.
