

STAR ONLINE PUBLICATION

Case Number: S2523000023

Release Date: April 2025

Symptom/Vehicle Issue: Trailer Tow Lights Inoperative. Diagnostic Trouble Codes (DTCs) B166E-13 B17AD-13 May Be Set.

Customer Complaint/Technician Observation: Performing a trailer bulb inspection prior to driving, the trailer lights are not working. The following DTC's may be set in the trailer tow module (TTM):

B166E-13-RIGHT TRAILER TOW LAMP CONTROL - CIRCUIT OPEN (MODULE, Trailer Tow (TTM))

B17AD-13-REAR LEFT TRAILER TURN LAMP CONTROL - CIRCUIT OPEN (MODULE, Trailer Tow (TTM))

Discussion: Inspect and document the lighting system on the trailer. If the trailer is equipped with incandescent lamps and they do not operate engineering is investigating concerns specific to incandescent (filament bulbs). A future service publication will advise as to a resolution.

This document does not authorize warranty repairs. This communication documents a record of past experiences. STAR Online does not provide any conclusions about what is wrong with the vehicle. Rather, it captures all previous cases known that appear to be similar or related to the vehicle symptom / condition. You are the expert, and you are responsible for deciding on the appropriate course of action.
