

## **SSM 53559 2021-2025 F-150 - Rear Parking Aid Activation When No Rear Obstacles Are Present - No DTCs In The IPMA**

Some 2021-2025 F-150 vehicles equipped with the rear parking aid feature may exhibit all of the following conditions:

- \* A rear parking aid alarm activation when in reverse and no rear obstacles are present
- \* No diagnostic trouble codes (DTCs) stored in the image processing module A (IPMA)

The Workshop Manual (WSM) has recently been updated to address this condition. Refer to the WSM, Section 413-13A Parking Aid - Vehicles With: Front Parking Aid/Rear Parking Aid > Diagnosis and Testing > Parking Aid > Pinpoint Test R: Continuous Or Intermittent Tone When No Obstacles Or Fault Codes Are Present.
