Customer needs to select sound type twice in the EV pages menu. Apple Car Play icon on main screen disappears once it is active. 						
CAUSE:	Software improvements						

REPAIR SUMMARY:

This bulletin provides information regarding the latest FOTA update and provides the service technician an overview of the steps a customer will need to take to complete the update. The radio software will be updated from U35.26 or U35.34 to U37.23.

NOTE: The national launch for the FOTA is expected to begin April 11, 2025.

DISCUSSION:

Vehicles sold in North America can now receive software updates "over-the-air". Updates to software will occur in a phased roll-out. The software is updated through a builtin cellular modem in the vehicle. Customers will see a notification on their radio screen when new software is available for their radio Fig. 1. The owner will have the option to update the radio or schedule the update for later. There is not an option to decline the update indefinitely, the update must be performed.

NOTE: This is an Information Only Technical Service Bulletin to inform the dealer how the FOTA update is performed. This document does not contain a LOP for reimbursement.

1. The vehicle needs to be in 'Park' and the ignition in the off position.

2. If the customer selects "Update Now" they can shut off the vehicle and leave. The update will be completed automatically Fig. 1.

Fig. 1 Software Update Screen

NOTE: This step may take several minutes to complete.

3. Upon completion of update, the radio will display a confirmation message Fig. 2.
