Case Number: S258A000003 REV A

Release Date: April 2025

Symptom/Vehicle Issue: Forward Facing Camera Showing Image Upside Down

Discussion: After a Central Vision Processing Module (CVPM) replacement, the tech may notice the front camera view is showing the image upside down. Mopar CVPM stock has been updated as of 3/7/2025. Recommend to replace CVPM.

This document does not authorize warranty repairs. This communication documents a record of past experiences. STAR Online does not provide any conclusions about what is wrong with the vehicle. Rather, it captures all previous cases known that appear to be similar or related to the vehicle symptom / condition. You are the expert, and you are responsible for deciding on the appropriate course of action.
