

Bulletin No.: PIP6056
Published date: 04/9/2025

Preliminary Information

PIP6056 Active Fuel Injector Tester (AFIT) Software Issue

Models

Brand:	Model:	Model Years:	VIN: from to	Engine:	Transmissions:
Cadillac Escalade		2021 - 2025	All	All 6.2L L87	All
Cadillac Escalade ESV		2021 - 2025	All	All 6.2L L87	All

Involved Region or Country	North America
Condition	An issue has been identified with the Active Fuel Injector Tester (AFIT) that may result in inaccurate test results.
Cause	AFIT Software

Correction:

It is recommended at this time to select a Chevrolet Suburban of the same model year (equipped with a 6.2L L87 engine) when performing the AFIT test on any 2021-2025 Cadillac Escalade (also equipped with a 6.2L L87 engine) at this time.

This workaround will provide accurate testing results as Engineering is investigating a design improvement.

The PI will be updated or replaced with a TSB once a determination has been made.
