# Wheel Size Vehicle Config Update Info

DATE: April 1, 2025

**MODELS:** All Maserati Models

In case of rim replacement, which may involve the use of tires with a different rolling circumference, please note that a Proxy update is always required to adapt the Vehicle Configuration to the new wheel/tire combination fitted to the vehicle.

Also remember that the required pressure can be different depending on the size of wheel rims/tires.

Refer to Technical Documentation procedure - **00.AB.055 WHEELS** - for details.

**NOTE: On BEV vehicles failure to follow the above instructions may cause the vehicle to set the "Turtle Mode".**

Please do not hesitate to contact us with any questions or concerns.

Kind regards
