T40123A Update to T40123"B"

USA Only

Vehicle Type: Macan (95B)

Subject: T40123A is being updated to the "B" kit by adding the T40123/2

Information: Porsche Special Tools & Equipment has identified the need to update T40123A.

By adding the T40123/2 to the existing T40123A, the complete set becomes the T40123B.

SBS has run a complete history report for the tools in this kit. Porsche centers will only receive the components that they need. This package will be delivered via automatic shipment as Minimum Required Tools (MRT).

24 Porsche Centers have the complete T40123B and will **NOT** receive any tools in this shipment.

172 Porsche Centers have the T40123A and will receive **ONLY** the **T40123/2**.

12 Porsche Centers that **do not have** the "A" or "B" kits will receive the complete **T40123B**.

Shipment from the SBS will start on **April 14, 2025**.

This auto-ship package includes one of the following **as needed**.

Tools

Included:	<u>Tool Number</u>	<u>Order Number</u>	<u>Quantity</u>	<u>Phase</u>
	T40123B	V03839141PJ	1	2
	T40123/2	V03839141PK	1	1

Important Notice: Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche PIWIS diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the PIWIS Tester are the ones that must be followed.
