

# TRIUMPH DIAGNOSTIC TOOL VERSION 2025-6 RELEASED

Diagnostic software version **2025-06** is now available to download and update your workshop PC. Please download (from the Triumph Diagnostic Software page under the Service/Technical menu) today and begin using immediately.

This release includes support for the new TF250-E and TF450-E and 2 new features:

- Engine ECU VIN write: This function will allow the VIN to be written to spares ECUs that do not have a VIN programmed. This feature supports all Euro 5 and Off-Road models.
- VIN Enquiry: The Smart Scan function now includes a VIN Enquiry. This shows all the same data as the TOL VIN Enquiry function; bike spec details, service history and outstanding Service Bulletins. This information is shown in the VIN Data tab of the Smart Scan results, as shown below.

See attached **Release Notes** for more details.

## Release Notes

 TDT-Release-Notes\_2025-06.pdf

- Please ensure all new bikes have the latest software downloaded at PDI.
- Please ensure the latest software is downloaded on all bikes being serviced.
- **PLEASE ENSURE ALL RELEVANT STAFF ARE INFORMED OF THIS UPDATE**  
(remember to update those returning from holidays/absence)
