
Special Tools and Equipment Information

SPTL 2507

Model Logo Templates available for rent

USA Only

Vehicle Type: Various Porsche models

Subject: Logo templates available for rent

Information: Porsche Special Tools and Equipment has created a Porsche Model Logo Template rental program.

This program will provide the following benefits:

- Reduce capital cost investment
- Reduce occupied storage space
- Rental cost of less than an individual purchase

Logo Templates can be rented for approximately $\frac{1}{3}$ of the listed retail price plus the cost of shipping.

Templates are rented in one week increments and will have a two-day delay to allow for shipping.

Unless otherwise requested, all logo templates will be shipped "FedEx 2Day".

To request a rental, visit the Porsche Special Tools rental website and create an account. An active Porsche Center dealer code is required to open a rental account. Tools acquired on the rental tool website are only to be used by Porsche Centers and are not available for the Porsche vehicle owner or Independent Repair Facilities.

Porsche Rental Tools website:

<https://porsche-cars-north-america.pointofrentalcloud.com/portal/>

The available rental Logo Templates are listed below.

Important Notice: Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche PIWIS diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the PIWIS Tester are the ones that must be followed.
