VOLUNTARY SERVICE CAMPAIGN

April 3, 2024

Dear Kia Sorento Vehicle Owner:

Kia America, Inc. is conducting a Voluntary Service Campaign to apply additional body seam sealer to prevent potential water intrusion into the blower motor in certain 2023-2024 MY Sorento vehicles. Kia dealers will also inspect and, if necessary, replace the blower motor. Our records indicate that you own or lease one of the potentially affected vehicles.

Why is Kia Conducting This Service Campaign?

The HVAC (Heating, Ventilation, and Air Conditioning) system uses cooling and heating to help maintain a pleasant environment inside your vehicle. The blower motor controls the airflow for the HVAC system. Due to improper body seam sealer application at the HVAC fresh air intake, your vehicle may experience water intrusion through the HVAC fresh air intake and onto the blower motor, potentially causing the blower motor to be noisy, operate more slowly, and eventually become inoperative. You may experience reduced HVAC fan speed, noise and, in some cases, wet carpets.

What Will Kia Do?

Kia dealers will apply additional body seam sealer to prevent potential water intrusion into the blower motor. Dealers will also inspect and, if necessary, replace the blower motor. This campaign will be performed free of charge **at no cost to you.**

What Should You Do?

- Please contact your Kia dealer to schedule a service appointment at your earliest convenience. The time required to perform the campaign can vary depending on the dealer's work schedule, so a service appointment is an important way of minimizing your inconvenience. Please present this notice when you arrive at the Kia dealer.
