

## **SSM 53822 2024-2025 Ranger - Leaf Spring Replacements - Built On And Before 28-Apr-2025**

When replacing the rear leaf spring assemblies on 2024-2025 Ranger vehicles built on and before 28-Apr-2025, if the vehicle was equipped with composite leaf springs, replacement of both the driver side and passenger side with steel leaf springs will be necessary. The service parts catalog is in the process of being updated to reflect the need to have matching springs.
