### HV Warning Signs

---

USA Only

---

Vehicle Type: Hybrid, PHEV and BEV

Subject: New Energized (red) and De-energized (green) HV Warning Signs

Information: Porsche Special Tools & Equipment has identified the need for distribution of the new HV Warning Signs. Energized (red) and De-energized (green)  
This package will be delivered via automatic shipment as Minimum Required Tools (MRT).

Your Porsche Centers will receive two sets of HV Warning Signs. Each set contains two different signs, Energized (red) and De-energized (green).

The complete 4 piece kit will be Auto-Shipped to your Porsche Center at a discounted price of **\$17.32**, plus shipping.

**The MRT requirement is ONE Set Per HV Tech.**

Additional sets are available for order via PRMS at the rate of \$13.23 for each 2-piece (red and green) set plus shipping.

Shipment direct from the supplier will start on **May 26, 2025.**

**Important Notice:** Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche PIWIS diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the PIWIS Tester are the ones that must be followed.
