Dear << Test FIRST NAME >> << Test LAST NAME >>,

As part of our ongoing pursuit of product improvement, we would like to address some recent seal concerns on our Model Z AIR Travel Trailers (entry doors, baggage doors, and front cap light lenses). The video below will help you identify any potential symptoms and provides instructions on how to properly inspect these seals. Should you discover any areas of concern, our Customer Care Team and network of dealer technicians are readily available to provide support.

Sincerely,

Brinkley Care

Social Media post 6/18/25

A screenshot of a Facebook post from the 'Brinkley Crew' group. The post is dated 3 hours ago and has 1 like. The text of the post discusses product improvement for Model Z Air Travel Trailers, specifically addressing seal concerns on entry doors, baggage doors, and front cap light lenses. It includes a link to a video explaining symptoms and inspection instructions, and mentions that the Customer Care Team and dealer technicians are available for support. The video thumbnail shows a man in a light blue polo shirt standing in front of a white Brinkley RV, gesturing with his hands. The video title is 'Z AIR: Exterior Lenses, Baggage Doors and Entrance Door leak Detection.' and the description begins with 'In this video, we'll walk you through how to identify potential leaks around the entrance door, ...'.
