Subject: DTC P06DD Set Current Or History

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Buick	Envision	2024-2025		All	2.0 LSY	All	All

Involved Region or Country	North America
Condition	DTC P06DD set as current or in history
Cause	Possible low engine oil level

Correction

If you encounter the above-mentioned vehicle with DTC P06DD set as current or in history perform the following steps.

1. Check and verify the oil level for any P06DD claims -> fill engine oil to correct level -> Drive vehicle to confirm P06DD will clear
2. If P06DD is still present, Perform Oil and Oil Filter Change -> Drive vehicle to confirm P06DD will clear, (This will help identify if poor oil quality or higher filter restrictions are the root cause)
3. If P06DD is still present, Perform P06DD diagnostics per Service Information.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, **DO NOT** assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
