

# Service Bulletin

Bulletin No.: PIC6614

Date: June, 2025

## PRELIMINARY INFORMATION

**Subject: Brake Assist Failure or Brake System Failure Message, Abnormal Brake Pedal Feel - No related DTCs Found**

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Cadillac	LYRIQ	2023-2025		All	All	All	All

<b>Involved Region or Country</b>	North America
<b>Condition</b>	A customer may report that a Brake Assist Failure or Brake System Failure message was present. Along with the message, the customer may also report abnormal brake pedal feel and/or an illuminated brake system warning telltale. Upon scanning for DTC's, no related brake system DTC's will be found.
<b>Cause</b>	In rare cases DTC's may not be viewable using GDS2 but will be available thru OnStar data.

### Correction

If the vehicle has the concern and no brake-related DTCs are available,

U.S. Dealers Prior to calling GM Technical assistance (TAC): Please open a case via Dealer Case Management (DCM) From the DCM home page in Global Connect, click on "New TAC Case" found on the Technical Assistance tab.

Canadian Dealers: Call 1-800-263-7740 for English or 1-800-263-7960 for French.

Ask the agent to pull an OnStar DTC report and look for any of the following DTC's; C0582, P30DA or C058A.

If any of the codes are found, follow SI diagnostics for the code(s) on the DTC pull.

<b>Modified</b>	06/27/0225 Created on.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, **DO NOT** assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
