QP Ghibli Levante Front Ceiling Light Repairability

DATE: July 24, 2025

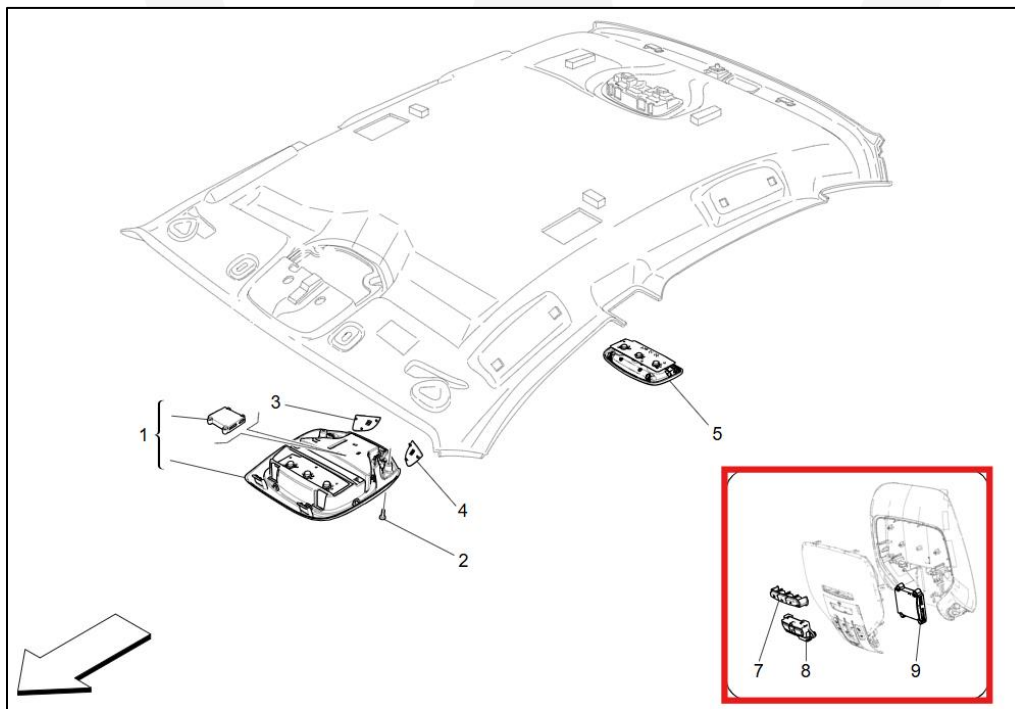

This bulletin provides updated information regarding the serviceability of the center tunnel door and trim components on Grecale vehicles.

Previously, if there was an issue with the ITM, Homelink buttons or the ceiling light buttons, the complete Ceiling Light assembly had to be replaced. It is now possible to replace individual components instead of the entire unit.

MODELS: Quattroporte (M156), Ghibli (M157) and Levante (M161) (All MY).

Available Components

The following individual components can now be ordered from the Spare Parts Catalog (section #08.10-1)
