

Cascadia Aero Component Amendments

07/31/2025 • Product News • Critical

To: Freightliner Dealer Principals, General Managers and Sales Managers

Effective immediately, there is an update to the aerodynamic content requirements for U.S. domiciled Fourth and Fifth Generation Cascadia. This change impacts orders received on or after 7/31/2025. TCOs will not be processed for trucks currently on order.

For specific updates please refer to the attached matrix.

SpecPro and Compatibility updates are in progress. A Product Marketing webinar to review recent and upcoming changes is scheduled for August 14th.

Reach out to your DM if you have any questions.
