

Service Bulletin

Bulletin No.: PIT6418

Date: July, 2025

PRELIMINARY INFORMATION

Subject: Low Frequency Howl Hiss Noise With The A/C On

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Chevrolet	Traverse	2025		All	All	All	All

Involved Region or Country	North America
Condition	A customer may comment about a low frequency howl hiss noise with the A/C On. The noise may continue for a few minutes after the A/C is shut off.
Cause	Engineering is currently investigating.

Correction

Engineering is currently investigating, in the meantime please continue to drive your vehicle

Note: Replacing the TXV or Evaporator will not correct the noise.
