### SERVICE:

Before replacing any parts, follow the checklist below.

1. Check the calibration of the window. Recalibrate if needed.
2. Inspect the sealing for any damages or deformations. Replace if needed.

# Technical Journal 37421.1.0

If the checklist above does not resolve the issue, follow steps below.

1. Apply tape to door panel (see attachment TJ37421\_1.JPG). Cut the tape to following dimensions: 25 mm wide and 690 mm long, ensuring it covers the entire panel lip.
2. Apply tape to the outer waist moulding against the glass (see attachment TJ37421\_2.JPG). Cut the tape to: 10 mm wide and 300 mm long. Apply with 2 layers. The tape should start approximately 300 mm from rear end (B pillar) and only cover the middle portion of the seal, not the entire moulding.

Tape:

Part number: 30788314

## Warranty claim info:

To get a warranty claim accepted for a job described in this TJ, use the corresponding VST OP number stated in this TJ.

Note that the TJ number must be stated in the repair order text.

## VST Operation Number

VST Operation Number	Description
85120-2	Panel side door front remove-install
99923-2	General reimbursement acc. to TJ

## LABOR TIME:

Labor time subject to change without notice.

## VEHICLE REPORT:

Yes, please submit a Vehicle Report if the service solution described in this TJ has no effect. Use concern area "Vehicle Report Polestar" and sub concern area "Support not needed Polestar", use function group 8455.

**To view TJ attachments continue to next page. This TJ has two attachments.**
