This Notice applies to your vehicle VIN listed above.

Pursuant to USC49CFR §577.13 – Notification to Dealerships and Distributors – Paragraph B

“It is a violation of Federal Law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by the notification under a sale or lease until the defect or noncompliance is remedied. Substantial civil penalties apply to violations of this law.”

–Forest River motorized and towable products are contained in this section–

Dear Forest River Customer:

Forest River Bus, LLC. is alerting you to a FCA recall 25V330/ 40C, involving certain 2023-2025 Forest River Vans, 2022-2023 LA West, and 2020, 2022-2025 Mobility Trans Transit Buses. Please see the information below which describes the issue and provides you with details on the steps you should take to have your vehicle repaired.

WHAT IS THE ISSUE?

The Security Gateway Module (SGW) on your vehicle may prevent some communication between vehicle modules, which may result in the rearview image not displaying in a backing event. The vehicle operator may notice that the rearview image is not displayed if attempting to reference the image while backing. A rearview camera image that does not display reduces the driver's visibility of what is behind the vehicle and if not heeded, increases the risk of a crash.

OWNERS AND DEALERS: WHAT SHOULD YOU DO?

Please review and follow the notice that accompanies this letter.

Sincerely,

Forest River Bus, LLC.

IMPORTANT SAFETY RECALL

Rearview Camera

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US LLC has decided that certain [2022-2025 model year (VF) Ram ProMaster] vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) No. 111 - Rear visibility.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The Security Gateway Module (SGW) on your vehicle ^[1] may prevent some communication between vehicle modules, which may result in the rearview image not displaying in a backing event. The vehicle operator may notice that the rearview image is not displayed if attempting to reference the image while backing. **A rearview camera image that does not display reduces the driver's visibility of what is behind the vehicle and if not heeded, increases the risk of a crash.**

The condition above fails to conform to the requirements of FMVSS No. 571.111 S6.2.6 requires that "The rear visibility system default to the rearview image being visible and meet the requirements of FMVSS No. 571.111 S6.2.1 (field of view) and S6.2.2 (image size) at the beginning of each backing event, regardless of any modifications to the field of view that the driver had previously selected..." and apply to other markets via direct reference to FMVSS or are implied via free trade agreements. Suspect vehicles may not display the rearview image during a backing event.

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA US will repair your vehicle ^[2] free of charge (parts and labor). To do this, your dealer will reprogram the SGW with corrected software. The estimated repair time is 20 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Ask your dealer for alternate transportation options while your vehicle is in service. Please bring this letter with you to your dealership.

**TO SCHEDULE YOUR FREE REPAIR,
CALL YOUR BUSINESSLINK DEALER TODAY**

WHAT IF I ALREADY PAID TO HAVE THIS REPAIR COMPLETED?

If you have already experienced this specific condition and have paid to have it repaired, you may visit www.fcarecallreimbursement.com to submit your reimbursement request online. ^[3] Once we receive and verify the required documents, reimbursement will be sent to you within 60 days. If you have had previous repairs performed and/or already received reimbursement, you may still need to have the recall repair performed.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
