ATTENTION: ALL DEALER PARTS & SERVICE MANAGERS

Kia America, Inc. is conducting a Voluntary Service Campaign to replace the gear oil in the front motor and gear reduction assembly and fill it to the factory-specified amount in the following vehicles:

- Certain 2023-2024 MY EV6 vehicles, manufactured from December 14, 2022 through February 22, 2024
- Certain 2023-2024 MY Niro EV vehicles, manufactured from December 12, 2022 through February 7, 2024

During the production of the subject vehicles, the amount of gear oil in the front motor and reduction gear assembly may have been filled below factory specification. If the gear oil level is lower than Kia's factory specifications, the subject vehicles may eventually produce a grinding or whining noise from the front of the vehicle while driving.

Dealers will replace the gear oil in the front motor and gear reduction assembly and fill it to the factory-specified amount. This campaign will be performed free of charge at no cost to the customer.

The Technical Service Bulletin that provides vehicle inspection and repair procedures, affected VIN production range, and warranty claim information will be posted on the Kia Global Information System (KGIS) at www.kiatechinfo.com during the week of August 20, 2025.

Enclosed you will find a copy of the owner notification letter and a Q&A Guide, both of which describe the issue. Kia will mail notices to the affected vehicle owners beginning on **August 22, 2025**.

Please make personnel in your dealership familiar with the details of this Voluntary Service Campaign so they may respond to customer inquiries and requests appropriately. This Voluntary Service Campaign is an opportunity for your service department to deliver an exceptional service experience to customers who may not have otherwise scheduled service. Providing customers with easy scheduling and timely service increases the chance they will return to your service department for future service needs.
