| Codes: | Inspect with Repair: TMCTS80299W | Document Date: | 8/25/2025 |
| Time Allowed: | Inspect with Repair: 0.5 | Document Revision: | A |

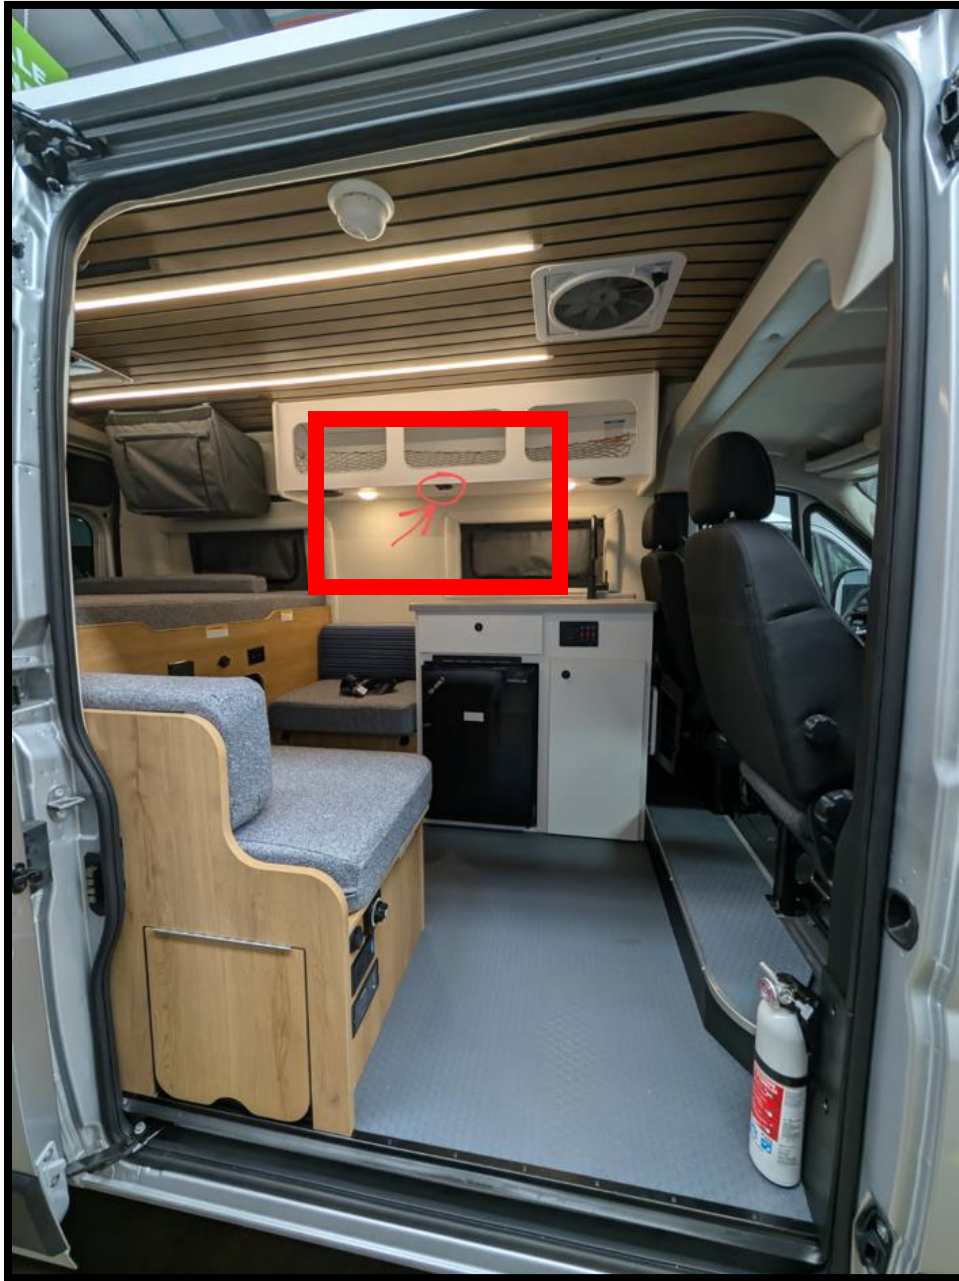

Issue:

It has been discovered the dimmer switch for the ceiling light is wired incorrectly. The light will turn on/off, but the dimming feature does not operate.

Instructions:

1. Locate the ceiling light switch with dimmer under the cabinet.

2. Remove the trim cover around the switch/dimmer and unscrew from the cabinet.
3. Expose the wiring behind the switch locating the butt-connectors.

4. The Red and White wires on the dimmer switch will need to be cut and swapped so the colors match up to the diagram. Use new butt-connectors to secure the wiring.
