

SS 581860 FCCC 15 Gallon DEF Header Service Replacement Additional Parts (299)

Applicable Vehicles

FCCC-XC rear engine chassis.

Symptoms

15 Gallon DEF Tank Header failure.

Issue

Original SSI DEF Header, which has been discontinued, has failed and needs to be replaced. Replacement KUS DEF header must be used as replacement, but MAY require additional parts and re-routing of DEF Coolant lines and DEF lines to the new KUS DEF header 04-37616-000.

Solution

See the attachment for ALL 12 possible applications based on original 23V & 23W BOM's compared to the new KUS replacement BOM's 23V & 23W and their applicable additional parts and installation drawings.

Normal Warranty would apply IF vehicle is eligible.
