Title	Carbon Fiber Raised Air Intakes Accessory Kit VPLEP0549
Category	Accessories
Last modified	04-Aug-2025 00:00:00
Symptom	General Accessories

Content**Model / Model Year / Derivative**

Defender / 25MY onwards / OCTA

Situation:

JLR Engineering investigations have identified that a small number of accessory carbon fiber twin raised air intakes with part number VPLEP0549 have been supplied with an incorrect rivnut pack that will prevent the kit being installed to the vehicle.

Cause:

Incorrect rivnuts packaged at the supplier.

Action:

Refer to the service information below.

Service Information:

When installing accessory carbon fiber twin raised air intakes with part number VPLEP0549 and it is evident that the rivnuts are the incorrect size, send an email to 'svhelp@jaguarlandrover.com' requesting a replacement rivnut pack and the accessory team will despatch the required parts directly to you. Include in your request the following details:
