

## Can-Am Canyon MY25 Saddlebag Handle May Rust - 144235

---

**Summary:**

The MY25 Canyon saddlebag handle could exhibit signs of corrosion

**Type:**

General

---

**TST Detail:****Problem:**

The Canyon saddlebag handle could exhibit signs of corrosion

The affected areas are, side case handles, top case handles, top case hinges

**Solution:**

Clean the affected handles and hinges with Ferronet p/n 219800633 that should be available soon

## Procedure:

Use masking tape to protect the plastics, bare or painted aluminum surfaces

Using a small paint brush apply an even coat of the Ferronet rust remover on the affected area

Let the product work its magic for **10 minutes maximum** while you prepare the other affected cases for the process

Then thoroughly rinse with water

## Result

If some of the product was spilled on the plastic parts of the case we had success cleaning it with Bar Keepers Friend soft cleanser and thoroughly rinse with water

## Warranty:

The complete process for all 3 cases should be completed within 0.8 hours
