

## STAR ONLINE PUBLICATION

**Case Number:** S258A000020

**Release Date:** September 2025

**Symptom/Vehicle Issue:** No Audio From Door Speakers

**Discussion:** Customer complaint of no audio from the front door speakers in the audio system. Check the amplifier fuses. As returned amplifiers for this concern were tested and no failures were found. The sales code RGE amplifier (23 Speaker Klipsch Reference) has two dedicated fuses. Check both the F05 and F66 fuses in the interior power distribution center located below the steering column. See fig 1 and 2 below.

**Note:** The door speakers, woofer, in vehicles equipped with Premium Audio Systems are designed to reproduce only low-frequency (bass) tones and do not output sounds in the vocal range. See SOL S258A000017 on using test tones to help with door speaker diagnostics.
