Subject:

FUEL FILLER DOOR ACTUATOR REPLACEMENT

This Pitstop provides information regarding the replacement of the fuel filler door actuator and wiring harness on 2022-2024MY Carnival (KA4) vehicles. When replacing a faulty fuel filler door actuator, ensure to order the corresponding replacement part number (shown below) for the applicable vehicle production date. Selecting the incorrect part may result in a vehicle “comeback” with a customer complaint of the driver’s side sliding door not operating with the power feature; however, the door can still be operated manually.

PNC	Part Name	Part Number	Qty	From	To
81230G	OPENER ASSY-FUEL FILLER DR	81560-R0000	1	01-04-2021	10-23-2023
		81560-R0500	1	10-23-2023	07-04-2024

NOTE: Both the fuel filler door actuator (1) and the included wire harness (2) must be replaced together. (DO NOT replace the fuel door actuator using the old/existing wire harness on the vehicle).

NOTICE

A Pitstop provides information which may help guide technicians address a concern on the subject vehicle described in this publication. A Pitstop is an informational guide/tool without customer notification. Technicians are to review the information provided in this Pitstop for the applicable vehicle and if applicable, use it for diagnostic purposes only. Dealers are required to validate Warranty Coverage in KDealer+ Warranty Coverage Inquiry before conducting any diagnosis/repair procedure.
